develop

COURSE APPROVAL

Course approval pathways have been streamlined in the revised system. Most courses submitted will go through the full course approval process to screen content quality and ensure transparency for training participants. The Develop course entry process has been updated to make the guides and descriptions of what is requested more clear and in plain language.

Other Develop improvements related to Course Approval include:

Course entry improvements(online/in-person, hovers, ordering, revised Course template and language related improvements

Training Sponsor Organization application screening, approval, electronic agreement

Plagiarism/confidentiality protection: Course checks added in order to protect content.

Course Writer membership independent from Trainer membership with an electronic agreement to confirm understanding of expectations as well as online, on-demand orientation training.

Universal requirement to enter attendance and use approved Trainers and writers

Training and Trainer Evaluation Tool (TTET) has been revised
